Hi-Tech Assembly Systems Inc. Now Offering Overmolding

Hi-Tech Assembly Systems is pleased to announce the addition of overmolding to our growing manufacturing capabilities. Working towards a “one stop shop,” overmolding further enhances our abilities to support all of our customer requirements. Along with our quality, engineering support, competitive pricing, production expertise, and on-time delivery performance – overmolding completes the product offering and service level our customers demand.

YUH-DAK—Model Y450C

The decision to pursue overmolding was fueled by numerous inquiries received from the local oil and gas industry. We are very excited with the growth potential of this ever-expanding market segment; as well as, our new ability to overmold all of our custom products.

YUH-DAK—Model Y450C

History

Hi-Tech Assembly Systems (HTAS), a manufacturer of custom cables, was established in December 1994 to service NORTEL Networks exclusively. HTAS has since evolved from a local supplier to become a global source for custom cable assemblies. Located in Calgary, Alberta, Canada HTAS occupies 18,000 sq. ft. and employs approximately 70 people.

Please direct any questions regarding your overmolding requirements or general cable assembly/harness needs to the attention of:
